

dies group ltd

**ENGINEERING
SOLUTIONS
TOGETHER**

UK Dies Group Ltd is a leading manufacturer of hot & cold forging precision tooling.

Our focus is to provide a world class service based on efficiency, excellent quality and reliable delivery commitments.

Based in the heart of the Midlands, we manufacture all our tools on site, working to bespoke customer drawings to produce the high-quality tooling standards you require.

Licensed manufacturers of external TORX® and TAPTITE® products since 1982.

Consultation

Through analysing your set up, manufacturing processes and tooling knowledge, we can assist in eliminating the daily problems you face.

We can:

- Provide additional engineering knowledge during your initial design stages
- Share our technical expertise, so you can make the best design choices
- Suggest ways to reduce manufacturing costs

Tool Development

New materials, manufacturing techniques and product developments are redefining our industry.

We can help you to:

- Develop a longer lasting tool
- Cut machine downtime
- Utilise the potential of the latest materials and machine technology on the market based on your tooling requirements

Aftersales Support

Once you have received your goods, we will continue to work with you to ensure they meet your requirements.

We can:

- Carry out analysis on worn or damaged tooling
- Offer suggestions for ways to improve tool life
- Provide continued support via your dedicated Account Manager to ensure complete customer satisfaction

COST SAVING

We use our knowledge, experience and resources to look at the challenges of engineering precision tooling through research and development of our innovative industry.

We'll help to ensure that you're making the most of available resources for your tooling needs.

IMPROVED TOOL LIFE

By looking at material grades and grains and suggesting small changes we can help produce a cost-effective tool that exceeds customer expectations.

We pride ourselves on having a proven track record of helping key customers to considerably improve their tool life.

PARTNERSHIP

Through working closely with our customers, we have built up a portfolio of solutions for tooling problems.

As part of our service we want to share these experiences with you and pass on the benefits.

EXPRESS SERVICE

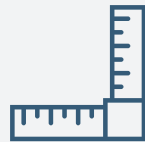

UK Dies holds a comprehensive range of carbide and steel materials and can offer flexibility through a premium service to provide fast turnaround whilst maintaining quality, performance and on-time delivery commitments.

QUALITY

At UK Dies we are firm believers in producing only the best quality products.

With a combination of engineering knowledge and manufacturing excellence, our customers can be confident that they are receiving the highest quality products which are reliable and long-lasting.

TAILORED SERVICE

We understand the needs of our customers and offer a tailored service to each and every one of them.

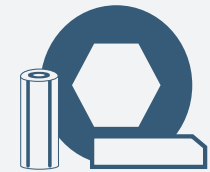

From your dedicated Sales Account Manager right through to delivery, our aim is to provide you with a consistently reliable, bespoke service to include Kanban/consignment stock.

EXPERIENCE

Over the years, UK Dies has developed a unique set of skills and capabilities that allows us to rely on a deeper technical knowledge of the industry and market.

Whatever the product, you can rest assured that it has been produced and handled with the highest care and attention to detail by our highly-skilled workforce.

PRODUCT RANGE

We can produce a wide range of tooling from complete tooling packages to individual dies.

Our products include: Torx® & Taptite®; Carbide & Steel Dies & Inserts; Segmented Steel & Carbide Dies; Specials; Punches; Composite Dies & Inserts.
